- A signed Intent to Hire Form from the cooperating district.
- A cumulative undergraduate GPA of 3.0 or higher.
- A grade of B or better in English Composition II and Speech/Oral Communication.
- A grade of C or better in College Algebra.
- In addition to overall GPA, students' previous undergraduate academic performance will be evaluated.
- A consistent and successful academic history at the undergraduate level that demonstrates the student can successfully pursue education-related coursework at the graduate level and pass licensure exams. This undergraduate coursework should include natural/physical sciences, humanities, and social/behavioral sciences courses.
